SEO Specialist with **nearly 2 years of hands-on experience**, growing organic traffic from 0 to **134K+ visits/month** across multiple projects. - Managed the project fully independently (solo team): strategy, onpage, offpage, and technical SEO.
- Built **custom in-house tools and plugins** to automate SEO workflows without outsourcing.
- Handled front-end development: page speed optimization, bug fixes, and feature deployment independently.
- Integrated AI (ChatGPT, Claude) across all stages: research, content briefs, technical audits — significantly boosting productivity.
